

TAFT ADVOCATES PREPAREDNESS

Former President Illustrates Necessity and Details Means to End

SPEAKS AT EXPOSITION

Asserts Germany's Acceptance of U. S. Terms Should Cause Profound Rejoicing

ESTIMATE PREPARATION COST

SAN FRANCISCO, Sept. 2.—William Howard Taft advocated preparedness for war today, illustrated its necessity and detailed the means to that end, in an address at the Panama-Pacific exposition delivered at "Taft Day" exercises.

A silver loving cup was presented to him by exposition officials.

Should Cause Rejoicing.

The acquiescence of Germany in this country's contention for the rights of non-combatant citizens on commercial liners of belligerents "should be the cause of profound rejoicing by every patriotic American and the occasion for congratulations to the president," said Mr. Taft.

"The very recent news from Washington," the former president continued, "shows that the firm attitude of President Wilson in maintaining the rights of our non-combatant citizens on commercial liners of belligerents shall be safe from drowning without warning and an opportunity for rescue, has been acquiesced in by Germany."

"This must and should be the cause of profound rejoicing by every patriotic American and the occasion for congratulations to the president."

"It must relieve the strain between the two countries. The shadow of a serious breach passes."

Should Be Reasonably Prepared.

"It should not, however, lead our people away from their duty of reasonable preparation. The incident, though closed, as we all hope, except as to indemnity for the lives of those already drowned shows how near as neutrals, we are to war. It shows that we must be careful to insist upon our rights as such as that we ought to be reasonably prepared to defend against their invasion by any belligerent power."

After outlining the naval and military preparations which he considered it necessary for this country to make, Mr. Taft estimated what the preparations would cost, indicated how the money might be raised and made a plea for the exclusion of politics from the question of preparedness and for the employment of expert advice.

Sums Up Necessary Preparations.

In summing what he regarded as necessary preparations, he said:

"First an increase of our navy tonnage as rapidly as possible by thirty per cent and an immediate increase of the personnel of the navy by nearly 20,000 sailors and 900 officers."

"Second, an increase in armament for our great coast defense guns, the making of a few 16 inch guns and the completion of the defense of Chesapeake and Cape Henry. In addition an increase of 10,000 trained coast artillerymen and 600 officers to man the coast defenses properly."

"Third, an increase in our regular mobile army of 50,000 troops and a quadrupling of the supply of educated military officers. We should also adopt the enlistment with inducement of the organization of trained men."

Will Increase Appropriations.

"The program I have proposed," he said, "modest as it is will certainly increase the annual total of the army and navy appropriations by \$150,000,000—perhaps \$150,000,000 for each of three years and probably more."

"This leaves \$325,000,000 at least, of necessary income to be provided for by new legislation of congress over and above what existing law probably would produce. This could be made up partly by the renewal of the war tax and of the sugar tax, yielding say \$125,000,000. There would be left from \$150,000,000 to \$200,000,000 of a deficit still to be provided for, either by cutting down expenses or by additional taxation."

Suggests Way to Cut Expenses.

Mr. Taft suggested that expenses could be cut by giving authority and responsibility to one body of men to consider the whole field of government income and expenditure.

A large sum, he said, would under any circumstances have to be raised by taxation. As a Republican he said, he believed that a change of policy to a higher protective tariff would serve most satisfactorily, but that he would not urge it because:

"I am trying to make practical suggestions and not a partisan speech and I am looking to what may reasonably be demanded of a patriotic congress in view of the present imperative need of increasing our national income."

"The imposition of a small tax on small incomes asks a sacrifice from our patriotic citizens that they will

SHERMAN LAUDS WILSON AND RAPS ROOSEVELT

SENATOR SPEAKS AT "HOMECOMING" CELEBRATION AT ROCHESTER

Praises Policy of President in Dealing With International Questions—States People Should Be Non-Partisan in Present Situation.

Springfield, Ill., Sept. 2.—In a speech at a "homecoming" celebration at Rochester, Illinois, today, United States Senator Lawrence Y. Sherman, a candidate for the Republican nomination for president in 1916, praised the policy of President Wilson in dealing with international questions, and denounced the utterances of former President Roosevelt relative to the administration.

"The affairs of this country," declared Senator Sherman, "have been conducted in such a manner that all possibility of trouble with any of the belligerent European nations has been removed."

Continuing Senator Sherman said: "I am not a member of the Democratic party and have no affiliations with that party. President Wilson is not a Republican and I am not a Democrat, but I am an American. As a voter in the United States senate I shall stand behind Wilson as long as he takes the stand that he has taken between the United States and Germany. The people should be non-partisan in a situation of this kind."

"No partisan politics should be thought of in connection with this situation and any political party that tries to make this issue a part of its platform should and will fail."

"When President Wilson speaks, the American people speak through him."

"I would rather that President Wilson should talk through Secretary Lansing for weeks and months than to be here asking young boys to leave their mothers for the trenches."

"If I can avoid these things by talking I don't care if there is someone in Oyster Bay who wants to fight. I'll agree with the president as long as his policy is the same as it is now regarding war with another nation. God speed our president to go on talking and keep us at peace."

CONVENTION ADVANCES TWO PROPOSALS OVER BARNES' PROTEST

New York, Sept. 2.—William Barnes in the New York constitutional convention today protested against the adoption of proposals designed to bring occupational diseases under the workmen's compensation act and to permit the legislature to regulate or prohibit manufacturing in tenement houses. Both proposals were advanced to the order of final passage by overwhelming majorities.

"If it is the Republican position to follow out the program of sociological legislation outlined by Samuel Gompers," he shouted, "then it is not the Republican party of which I have ever had knowledge and is not the party to which I belong."

AMMONIA TANK EXPLODES; ONE MAN IS FATALLY BURNED

CHICAGO, Sept. 2.—One man was fatally burned, three were overcome and more than 100 diners at a downtown restaurant fled in panic tonight when an ammonia tank, connected with an ice plant, exploded.

Firemen braved the fumes to rescue those overcome, all of whom were employees. The plant had just been installed and it is believed the men were unacquainted with its operation.

EXPLOSION INJURES TWO.

Wilwaukee, Wis., Sept. 2.—An explosion today during experiments to find a process of manufacturing potash caused injuries which may prove fatal to Dr. Frederick C. Gillen, 919 New Hall street, prominent physician, and may result in the loss of both eyes by his brother, William H. Gillen, an contractor. The cause of the explosion is unknown.

be willing to make if our politicians have the courage to impose it and explain the imperative necessity.

Asks Exclusion of Politics.

"The payment of a tax, however small, makes a man a better citizen."

To assume that the plain people are unwilling to pay increased taxes in case of national need is to distrust them and to ascribe to them the lowest motive for political action. Let us exclude politics from the question of preparedness. Let us accept the cost. Let us insist that congress and the administration manifest the courage to incur the odium of unthinking and unpatriotic men who would resent contributing to such a cause.

"Let us insist that the congress and the administration shall defer to the judgment of real expert naval and army officers and boards as to how we should prepare and shall not allow the dangerous little knowledge of committee chairmen and civilian politicians, ignorant of our needs to obstruct the work of proper national defense."

PONTIFF PRAISES WILSON'S ATTITUDE

Cardinal Gibbons Delivers Message from Pope to President Wilson

CALLS ON LANSING

Prelate Speaks Cheerfully, Saying Prospect for Peace Seems to Be Brightening

PRESIDENT IS MUCH PLEASED

WASHINGTON, Sept. 2.—Cardinal Gibbons came to Washington today with a message of hope for peace in Europe to President Wilson from Pope Benedict. It was a cablegram praising the president's attitude and indicating a belief that the United States might be in a position to help in bringing the European war to an end.

Speaks Cheerfully of Situation.

After reading the message, the cardinal remained for half an hour with the president discussing the possibility of peace and the world situation generally. He emerged smiling and walked over to the state department for a conference with Secretary Lansing. He spoke cheerfully of the situation, saying the prospects for peace seemed to be brightening.

The text of the pope's message was not made public nor was there any formal comment on it from the white house. Unofficially, however, it was said the president was much pleased with the message and with the interview.

It was understood that the pope made no definite suggestion as to a peace movement and that his message was purely a personal one to President Wilson and not addressed to the heads of other neutral governments.

Suggests Joint Action for Peace.

Joint action for peace among the heads of several neutral nations and the pope was suggested as a possible outcome of today's developments but this idea received no official confirmation. Up to the present the United States has acted entirely alone in the single offer it has made to be of service in bringing about peace.

Diplomats representing the belligerent nations reserved comment on the conference until more definite information has been given out. It was pointed out that many political questions, including the maintenance of the neutrality of the Balkans and the establishment of a separate Polish kingdom would be involved in the discussion of peace at this time.

Offer Still Stands Open.

The president's offer of the services of the United States to the belligerents still stands open and he has reiterated several times that he had been willing to do everything possible in that direction. Whether he will take any further steps without hearing directly from any of the powers involved has not been made clear.

News dispatches from abroad recently discussing the possibility of peace have been given the president's earnest attention and American diplomats in Europe have standing invitations to communicate anything received on the subject to the president.

In Mr. Wilson's private study in the white house, filed away by himself, is a mass of data on the question, including reports made him by Colonel E. M. House, who spent several months abroad studying the situation. The Mexican situation was touched upon incidentally by Cardinal Gibbons both at the white house and at the state department, with an expression of his hopes for an early restoration of order and government in that country.

BERLIN OFFICIAL CIRCLES TREAT NEGOTIATIONS AS CONFIDENTIAL

Highest Officials Are Not Adverse to Admitting That They Regard Situation With Optimism.

Berlin, via London, Sept. 2.—Official circles in Berlin treat the negotiations now in progress with the United States on the submarine problem as highly confidential and this makes it most difficult to obtain any official information or to transmit the views held in various quarters. The highest officials, nevertheless, are not adverse to admitting that they regard the situation with optimism, an optimism based on knowledge of the instructions which have been issued and the developments here with probably will facilitate the task of negotiations. Count von Bernstorff, the German ambassador at Washington, it is understood, is in possession of a fairly wide reaching authority to negotiate for a settlement of the submarine question and it is believed the proposals he is authorized to make will strike at the heart of the problem as affecting the United States.

ANNOUNCE PLAN FOR NEW NAVAL RESERVE

CONTEMPLATES MOBILIZATION OF YACHTSMEN AND BOAT OWNERS

Body Would be in Addition to Regular Naval Reserve—Acting Secretary Roosevelt of Navy Department Gives Out Statement.

Washington, Sept. 2.—A plan for the building up of an adequate national naval reserve in addition to the existing national guard and the regular naval reserve created by the last congress was made public today by Acting Secretary Roosevelt of the navy department. It contemplates the mobilization of yachtsmen and power boat owners and their craft with navy reserve ships in a training squadron.

The statement says plans have been under consideration for some time for definite organization of the elements outside of the regular naval reserve and upon which the navy should be able to draw in emergencies.

The statement says:

Particularly Desire Individuals.

"It is believed the reserve should total 50,000 officers and men. What is particularly desired is not merely numbers, but individuals who will be capable of doing the highly specialized service which exists in modern navies."

"For instance, in war time the navy would need services of possibly 1,000 additional radio operators, it would require local pilots for inside waters, helmsmen, gunners, gasoline motor experts, signalmen, etc., besides of course, first class seamen."

"If the general plan is approved, it is hoped that next summer courses of instruction can be started, using reserve or other available ships and giving to those who desire, three or four weeks of training so that they could become of some definite use if called upon."

"Any amateur radio operator, any yachtsman, or motor boat enthusiast, in fact, any citizen with intelligence and application could learn how to fit into some place where he might be needed. Possibly some form of certificate could be given at the close of instruction showing exactly what services the individual is capable of performing, the holder to be under no further obligation than to keep the navy department at stated periods informed of his address."

Need Small, Fast Yachts.

"Steps already have been taken to organize the merchant shipping but much remains to be done. Modern naval operations have shown the great need of a large number of small and fast yachts and motor boats of a type as seaworthy as possible. It will be possible in connection with the training of volunteer civilians to list all suitable vessels and their crews in the duties that would be expected. This training would be given in conjunction with the use of naval vessels in the summer time and would be in charge of regular officers."

Three Hundred Boats in Chicago.

Chicago, Sept. 2.—Commodore James A. Pugh of the Chicago Yacht Club, who with Mayor William Hale Thompson, also an enthusiastic yachtsman, has been active in promoting and working out the plan to build up a naval force from yachtsmen and power boat owners declared tonight there were fully 300 boats in Chicago harbor alone the owners and crews of which would be available to enter such a reserve.

"Anyone competent to handle a craft on the Great Lakes is well qualified as a sailor in any waters," Commodore Pugh said.

"The crews of the yachts hereabouts are all first class seamen and so are the majority of the men who own the craft. They are of the kind of men the navy needs and would provide a force that would need little training—none at all in practical seamanship."

ARRANGEMENTS FOR TRIALS NEARLY COMPLETE

Quincy, Mass., Sept. 2.—Arrangements for the official trials next month of the Battleship Nevada now nearly completed at the Fore River Shipbuilding corporation yards were, were announced today.

The Nevada is of 27,500 tons displacement and carries ten 14-inch, twenty 5-inch rifles and four 20-inch submerged torpedo tubes. She is similar to the New York in armament, although 500 tons larger.

STATES VON TIRPITZ WILL RESIGN

London, Sept. 2.—An Amsterdam despatch to the Exchange Telegraph company says it is reported that Admiral Von Tirpitz, the German minister of marine, will resign and will be succeeded by Admiral Von Pohl, now chief of the admiralty staff and commander of the German battle fleet.

SEVERAL HUNDRED JOIN STRIKERS.

Philadelphia, Sept. 2.—Several hundred men employed in the construction of the new plant of the Remington Arms company at Edgewater today joined the strikers who walked out earlier in the week to enforce demands for high wages and recognition of their union, according to officials of the building trades council of this city.

MEXICANS KILL TWO AMERICANS

Bullet Riddled Bodies Are Found in Bed of A Dried Lake

ONE MAN MAKES ESCAPE

Bandits Become Engaged in Running Fight With Detachment of U. S. Infantry

STATE PIZANO LED BAND

BROWNSVILLE, Tex., Sept. 2.—The bullet riddled bodies of two Americans who were kidnapped early today by Mexican bandits about twelve miles north of here, were found late today in the bed of a dried lake.

They were Earl Donaldson, a farmer, who came here from Fayette, Mo., two weeks ago, and an engineer named Smith, engaged in concrete construction work on an irrigation canal. The bodies were brought to Brownsville tonight.

State Pizano is Leader.

Officers said tonight that Aniceto Pizano, a Mexican, who was engaged in the Los Tultitos fight last month and escaped to Mexico, and whose name later was signed to a circular distributed in Mexico urging Mexicans to rise in arms against Americans, was the leader of the band.

Donaldson, Smith and Stanley Dadds, a contractor, building an irrigation pumping station were captured by the Mexicans. Because one of the band told the others that Dadds was a German, he was not harmed, but his hat and shoes were taken. The pumping station and an automobile were burned by the bandits. Later in the day the Mexicans became engaged in a running fight with a detachment of United States infantry and in the excitement, Dadds escaped. He telephoned from a distant ranch house tonight that he was safe.

The fight between the Mexicans and the American detachment resulted in the death of one Mexican and the escape of the fifteen others, who composed the band. No American was hurt.

Six Mexicans Show Fight.

Lieutenant Faulkner, who commanded the detachment, reported that the automobile trucks bearing the Americans was traveling along the Old Alice stage coach road when the Mexicans were seen. Called upon to halt, six of the band showed fight, using an irrigation canal as a trench, while ten made a quick escape down the canal. Five of the six finally escaped leaving their dead.

Following a flight this afternoon, Lieutenant Joseph C. Morrow, pilot, with Lieutenant B. Q. Jones as observer, reported that United States cavalry and infantry were well disposed throughout the section in which there are believed to be from fifty to sixty Mexican bandits. Further fighting was expected momentarily.

At the Fresno canal the bandits yesterday fired probably a score of shots at Perry Clark, an American land clearing contractor, but none took effect.

A Mexican who saw and talked with members of the band said they were trying to force the Mexican population of this section to join them. All were reported to be strangers in this section.

CONSUMERS WILL REAP NONE OF PROFITS ACCRUING TO IMPORTERS

In Many Instances Profits Have Been Greatly Reduced by Advances in Price in Europe.

New York, Sept. 2.—The man who buys his goods over the counter will not reap a cent of the big profits accruing to importers, because of the prevailing depression in foreign money and foreign exchange rates, it was said here today and in many instances profits that would otherwise have accrued to the importers themselves have been greatly reduced by corresponding advances in price on the other side of the Atlantic.

Because of low exchange rates, it has been possible to importers here to pay their bills ahead at discounts varying from five to seven percent on goods bought in England to as much as 25 percent on goods purchased in Italy. A great many importers, it was said, had seized this opportunity.

Although the value of the French franc was depressed 15 to 18 percent it was said today importers of French goods would benefit but little by the rate. The French manufacturers foresaw the situation and forestalled it in a great many cases by raising the prices of their commodities to a point where the depression in France was exactly offset.

WILSON ATTENDS THEATRE.

Washington, Sept. 2.—President Wilson went to a theater party tonight for the first time for more than a year.

CHARGE MRS. MOHR HIRED MEN TO KILL HUSBAND

WOMAN IS ARRESTED AS RESULT OF CONFESSION OF THREE NEGROES

Widow of Providence Physician Denies Charges—Is Released in \$10,000 Bail—Negroes Are Locked Up on Charge of Murder.

Providence, R. I., Sept. 2.—Fifteen hours after Mrs. Elizabeth Tiffany Blair Mohr had been arrested as a result of the confession by three negroes, that she had hired them for \$5,000 to kill her husband, Dr. C. Franklin Mohr, a wealthy physician of this city and Newport, she was released in \$10,000 bail tonight.

In view of the charge that she had "aided, counseled and hired" the three men to kill Dr. Mohr, who was shot down at the time his secretary, Miss Emily G. Burger, was seriously wounded as they sat in their stalled automobile in a dark spot on Nayatt Road, Tuesday night, Assistant District Attorney Claud R. Branch, asked that bail be fixed at \$25,000.

The only statement obtained from Mrs. Mohr during the day was a denial of the charge against her. When confronted with Cecil Victor Brown, the former hostler on the Mohr estate, whose confession led to her arrest, she said:

"It is not so. You know you came up to my house and said that you were going to 'get square' with the doctor, because he did not pay you what he owed you. I told you not to be foolish."

Brown, with two alleged accomplices, Henry Spellman, his half brother and George W. Healis, the doctor's chauffeur, were locked up tonight in the Bristol county jail. All three are charged with murder.

PRaises Military Department of University of Illinois

President James Receives Copy of Report of Inspection by Captain J. P. Robinson of the General Staff.

Champaign, Ill., Sept. 2.—The United States War department has just sent to President James of the University of Illinois a copy of the report by Captain J. P. Robinson of the general staff of his inspection of the military department of the University of Illinois. The report highly compliments the efficiency of the institution's military department.

Captain Robinson states among other things, that the faculty of the University attach a high degree of importance to the military instruction and that the officer on duty at the University is cordially supported by the faculty in the matter of military instruction and discipline. He reports that the military duty is performed with an excellent degree of zeal and that the general appearance of the cadets at inspection was excellent, further, that the requirement of the federal law in regard to time devoted to the military department, courses of instruction, etc., have been fully complied with.

It is also his opinion that the efficiency in infantry instruction and training is sufficiently advanced to warrant devoting time to instruction in artillery and other branches and also that the military instruction is of such extent and thoroughness in the case of cadet officers as to qualify the average graduate for a commission as a lieutenant of volunteers.

He closes his report by saying that all of the exercises witnessed at the time of the official inspection were excellent for an institution of this type and that the steady progress of the military department of the University of Illinois deserves the highest praise.

WILSON GIVES OUT LETTERS HE WROTE TO GARRISON AND DANIELS

President Told Secretaries He Wanted Them to Confer With the Best Informed Experts of Their Departments.

Washington, Sept. 2.—President Wilson tonight made public letters he wrote to Secretaries Garrison and Daniels last month asking them to formulate for him definite programs for strengthening the national defenses in order that he might make recommendations to congress in his next annual message. The president told the two secretaries he wanted them to confer with the best informed experts of their departments and submit plans formulated in very definite terms. Whether the entire program could be proposed to congress immediately, he said, would have to be determined after further study. In accordance with this request Secretaries Garrison and Daniels have been at work on their reports for more than a month and now have them practically complete. They soon will be submitted to the president when he will discuss them with the chairman of the military and naval committees of congress.

The following telegram from John Hayes Hammond, president of the National League of Republican clubs, was made public tonight by Secretary Garrison.

"Regardless of politics the people are behind you in the important work you are so ably doing for our defense. Any suspicion as to your integrity of purpose is entertained only by shallow minds and by contemptible politicians whose wish is 'father to the thoughts.'"

AUSTRO-GERMANS MAKING HEADWAY

Russ Evacuate Western Forts of Grodno After Two Are Destroyed

AUSTRIANS GAIN GROUND

Vienna Reports Series of Successes Which Virtually Have Driven Russ Out of Galicia

SINK TURKISH TRANSPORTS

LONDON, Sept. 2.—Except in the region of Riza where the Russians are presenting a solid front, the Austro-German offense again is making headway and, as they have been doing for four months, the Russian troops have resumed their withdrawal movement. The western forts of Grodno were evacuated after two of them were destroyed by the heavy guns and stormed by the German infantry. It is considered likely the whole fortress already has been left to its fate, but it was no longer tenable after the Germans had crossed the Grodno-Vilna railway, which they did at two points and had penetrated the forest of Bieloviez, to the southeast of the town. Vilna, doubtless will be the next objective of the Austro-Germans on this front.

Drive Russ Out of Galicia.

In the southeast Vienna reports a series of successes, which virtually have driven the Russians out of Galicia. They now hold only a very narrow strip between the Serth river and Bessarabia. Across the border in the latter province the Austrian state, the Russians set fire to a number of villages, which might indicate a further retreat.

Thus the hopes raised in the allied countries by recent successes, that Russia at least was making a stand, have been dispelled.

Claim Advances Everywhere.

Everywhere the Austro-Germans claim to be advancing, but they have not captured of late any great number of men or guns. The Russian guns have been kept well behind the infantry and are quickly moved back when the rear guard are unable longer to hold off the invaders. There is some talk of an advance on Kiev, but the distance to that city is considerable and the country over it would have to be made difficult for the movement of troops.

On the western front the Germans claim to have recovered trenches which they lost in the middle of August, Vosges, while the French simply refer to the heavy artillery engagements which have been the feature of the last nine days with on suggestion of what they forshadow.

Increased activity at the Dardanelles is shown in all the official reports. Besides their success in capturing an important position east of Suvla Bay which dominates one of the Turkish lines of communication the British have sunk four more Turkish transports in the straits; while the fire of the ships across Gallipoli peninsula has made the movement of Turkish troops by either land or sea more difficult.

Mine Sweepers Busy.

According to the Turks mine sweepers have been busy at the entrance of the straits, suggesting that an attack is contemplated by the allies from another direction. A despatch from Rome says that the Austrians have evacuated Rovereto, which recent Italian advances had threatened to cut off. An official report from the same capital claims a number of successes for the artillery and infantry on different fronts.

BODIES ARE IDENTIFIED.

Honolulu, T. H., Sept. 2.—Two of the bodies taken out yesterday from the United States submarine F-4 were identified today as those of Charles H. Wells of Norfolk, Va., machinist's mate and Frank N. Herzog of Salt Lake City, Utah, electrician.

The only other body identified so far is that of George T. Ashcroft, gunner's mate of Los Angeles.

The New York Times Annalist Index Number on wholesale prices of 25 leading articles of food for the second week in August, 1915, was 145.17, compared with 139 for the second week in August, 1913, under Republican law. The index number for the year 1914 was 146.07 compared with 139.98 for the year 1913.

Though the people of this country undoubtedly want a permanent, non-partisan tariff commission they don't want it appointed by a Democratic president who will select a majority of its members from among men who are opposed to a scientific protective tariff. They want a tariff commission created by the friends of the protection principle. They want it to ascertain the facts and submit those facts to congress for its guidance in determining the amount of duty necessary to give the American wage earner adequate protection from the cheap labor of foreign countries. They want a tariff commission not subservient to the White House but acting in its own right and according to its own judgment under authority of law definitely prescribing its powers and duties. They want a commission governed by law and under no obligations to a Democratic president who opposes the principle of a protective tariff.

The Greatest of All Crops.

Never in the history of our country has there been a crop as that which has just been harvested, or is now ripening for the harvest. Never we think, in all the history of all the world was any nation so blest with bountiful yields, with bursting plenty.

How eloquent these items are, as taken from the latest government estimates: Corn, 2,920,000,000, against 2,672,804,000 last year, an increase of about 250,000,000 bushels; wheat, 966,000,000 bushels, an increase of 75,000,000 over last year's banner crop; oats, 1,400,000,000 bushels, an increase of 260,000,000 bushels.

We will have four million tons of hay above the 1914 mowing and there will be twenty-five million more bushels of potatoes in the great American bin. All down the line the story is the same, with perhaps the single exception of apples. With a prospect for fair prices for most products, if America does not have a record-breaking prosperity during the next twelve months, we will have to abandon the theory that "good crops mean good times."—Farm Life.

Taft Believes in Greater Defenses.

In an address delivered yesterday at the Panama-Pacific exposition Former President Taft gave further proof of the fair minded spirit and patriotism which have marked his course. He gave unstinted praise to President Wilson for the firm course followed in demands on Germany made for the rights of non-combatant citizens.

Then Mr. Taft made an argument for greater preparedness in the United States urging an increase of the navy tonnage by 20 per cent, at least 20,000 more sailors and 900 officers; more ammunition for coast defense guns together with 10,000 trained coast artillerymen to man the guns, and the needed officers; an increase in the army.

In discussing ways and means of raising the funds for such increase Mr. Taft declared that anyone who thought the average American citizen with a small income would object to a tax for defense purposes misjudged his countrymen.

"Let us exclude politics from this question of preparedness," the speaker said. "Let us accept the cost. Let us insist that congress and the administration manifest the courage to incur the odium of unthinking and unpatriotic men who would resent contributing to such a cause. Let us insist that congress and the administration shall defer to the judgment of real expert naval and army officers and boards as to how we should prepare and shall not allow the dangerous little knowledge of committee chairmen and civilian politicians, ignorant of our needs to obstruct the work of proper national defense."

Community Civics.

"Community civics helps the child to know the meaning of his community life, not merely a lot of facts about it," says a bulletin just issued by the U. S. Bureau of Education. This bulletin was prepared by four members of the committee on Social studies of the National Education Association—Dr. J. Lynn Barnard, School of Pedagogy, Philadelphia; F. W. Carrier, principal of Wilmington (Mass.) high school; Arthur W. Dunn, specialist in civic education, U. S. Bureau of Education; and Clarence D. Kingsley, of the Massachusetts board of education.

The authors of the bulletin make clear that the term "citizenship" is used broadly. The "good citizen," they say, "is a person who habitually conducts himself with proper regard for the welfare of the com-

munity of which he is a member, and is active and intelligent in his cooperation with his fellow members to that end."

Community civics, according to the bulletin, should be taught in the elementary grades of the public schools and should be continued in a more comprehensive course in the first year of the high school. "Many pupils do not enter high school at all, and those who do should already have begun to acquire habits of civic thought and action. The greater maturity of the high school pupil makes possible the development of phases of the subject that are impracticable in the elementary school."

"Many courses in civics fail," the authors think, "because they fix attention upon the machinery of government rather than upon the elements of community welfare for which government exists. They familiarize the pupil with the manipulation of the social machinery without showing him the importance of the social ends for which this machinery exists. A lesson in community civics is not complete unless it leaves with the pupil a sense of his responsibility, and results in right action. To attain these ends is perhaps the most difficult and delicate task of the teacher."

Farmers' Railroad to be Sold.

The last chapter in the spectacular history of the Atlantic and Southern Railroad, built by the Iowa farmers to create competition and a reduction in freight and passenger rates, is about to be written. The line will be sold for junk. The rails and ties will probably be taken up and transferred to Arkansas for use on a small railroad in that state. The stations will be sold to anyone who will buy them and the right of way will revert to the farmers along the route, who originally donated most of it to the railroad.

Not a wheel has been turned on any portion of the road since Jan. 1. Two years ago, after passing through receivership, the line was sold at auction and was purchased by the firm which had furnished the cross ties, the bid being the amount still due it. This firm operated the road for eighteen months, but lost money every month and closed down entirely with the opening of this year.

The Atlantic & Southern was unique among railroads. It is 35 miles long and was completed Jan. 1, 1911, after a spectacular building race for a prize of \$50,000, which was to be paid conditional upon the completion of the road upon that date. During the last month of construction, the work was carried on day and night, electric lights being strung along the line. The job was completed with only a few hours to spare, and the first train to pass from end to end arrived at the terminal within less than one hour of the last moment possible for it to do so and yet win the prize.

The little road was built in large part by farmers. Not only did they finance the deal, but they performed most of the work. Every spare hour a farmer had, he drove over to the line and put his horses and himself to work. Sometimes he was paid in actual cash, but for the most part the farmer workers were paid in stock in the road.

The Question of Economy.

Election day will be Tuesday, Sept. 21, just two weeks from next Tuesday. The campaign will be brief and there is no need for a great amount of discussion for everybody understands the issue. The question is "Shall Jacksonville turn backward and embrace the form of government which was in force before the new state law made possible the adoption of the commission form?"

In many cities the centralization of power and responsibility through the commission form, has been attended with an increase in the efficiency of public service. In Galveston, Des Moines and other cities the plan resulted in economies and improvements. The officers elected in these cities seemed to feel a greater responsibility than had their predecessors under the old form and transacted city business on the same principle they would follow in the conduct of a corporation's affairs.

Here in Jacksonville nothing was said about a return to the old form until after the election was held in May. Some of the most earnest supporters of some of the present officers are now numbered among those urging a return to the aldermanic form. Thus far no argument has been put forward for a change at this time other than the assertion that the present officers are not devoting all of their time to city affairs and are drawing too much salary.

Without discussing the propriety of officers in city government, the maximum salary allowed under the law it is certainly true that the present officers have passed no ordinance fixing their salaries and have made no statement which would justify the assertion that they intend to draw these limit salaries. Furthermore, even with limit salaries the cost to the city would not be any greater in the next two years than will be occasioned by the series of elections if the old form advocates win Sept. 21st.

Nobody has denied that the present city officers measure up well with those who have served in past years. Ordinary business judgment suggests that these officials, who have been charged with nothing worse than failing to state that when they draw their salaries the said salaries will be less than those effective during the past administration—be given a chance to demonstrate for at least a year or two what they can do in managing city affairs. Certainly no money will be saved for the city by having an election for mayor and aldermen this year and still another election next May.

WORK PROGRESSING ON NEW PLAZA HOTEL.

Work is being carried forward rapidly in the remodeling of the new Plaza hotel. Mr. McCabe of Springfield has completed the tile floor in the office and Joseph DeGoveia, the contractor, had workmen setting the main stair case Thursday.

Gus Maurer and George Bettinghaus representing the Reisch company were here Thursday and took up several matters of interest. It was decided to add the six rooms in the second floor of the building which was occupied as an office by Mr. Vieira to the hotel. This building adjoins the hotel on the west and a door will be cut through the wall from the second floor. All of these rooms will be equipped with bath. W. M. Ballard of the Ballard and Johnson company, who have leased the restaurant privileges of the hotel was here also looking over the ground. He is ordering his furniture for the room.

While here Mr. Maurer consulted with E. J. Howells, manager of the Bell Telephone company relative to placing the telephone system. If plans previously made are carried out there will be a telephone in every room.

RETURN FROM NORTHERN TRIP.

Mr. and Mrs. William Newman and daughter, Miss Mary Louise arrived at home Wednesday night from a six week's trip in the north. They visited their son, J. Ellis Newman, and family at St. Paul, and saw the grandson, and then went to Virginia, Minn., and enjoyed a visit with their son, Ward Newman. Both of the sons are managers of Woolworth stores, which are conducted on lines similar to those employed in the Woolworth store in this city. While in Minnesota they saw a heavy bear frost, which resembled a light fall of snow.

GRAND JURY RETURNS NO INDICTMENTS IN FRANK CASE

Reports that it is Unable to Find Enough Evidence to Indict Any One.

Marietta, Ga., Sept. 2.—The Cobb county grand jury reported late today that it had been unable to find enough evidence after a two days' examination of witnesses to indict any one for the lynching of Leo M. Frank. The report stated:

"We have investigated the information furnished us by officers and other parties and have followed up letters, signed and unsigned and to this end we have subpoenaed and examined many witnesses in an effort to disclose the perpetrators of this crime but none of these witnesses gave any evidence."

Upwards of 35 witnesses were examined yesterday and today. They included the chief of police and other citizens of Atlanta and persons in every walk of life in Marietta. Anonymous letters referred to in the report still are being received by officials of Cobb county and others but the tendency is to ignore them. Marietta is not in the frenzied state of turmoil that has been pictured said Solicitor Clay today.

DISCUSS FIRE PREVENTION AT CONVENTION OF FIRE ENGINEERS

Subject Comes Before Fire Chiefs When Committee Appointed a Year Ago Files Its Report.

Cincinnati, O., Sept. 2.—Prevention of fires was discussed at a brief session of the annual convention of the International Association of Fire Engineers here today.

This subject came before the fire chiefs when the committee on fire prevention appointed a year ago, filed its report. Chief John Kenlon of New York, chairman of the committee read the report.

The report stated that one of the great contributing causes to fire losses in America is the density of population in many cities and the concentration of values in small areas.

In future, the report said fire departments will be divided into two groups, fire fighters and fire preventers. The work of the fire preventers for the next 100 years will not make the service of the fire fighters less necessary. It is because of the structural conditions which prevail in American cities. Until these are changed, cities will have to maintain powerful fire departments the committee contended.

FUNSTON FORWARDS REPORTS ON FIRING ON AUTOMOBILE PARTY

General Also Sends Message Regarding Firing on Army Aeroplane, to War Department.

Washington, Sept. 3.—General Funston forwarded to the war department reports from commanders at Brownsville and Harlingen on the firing last night and yesterday on an automobile party and at an army aeroplane. The report from Brownsville said:

"Twelve feet of trestle burned by bandits on railroad between Brownsville and Harlingen fourteen miles from Brownsville, one o'clock this morning. Same time and place two automobile loads civilians fired on, none hurt, reported. Trains expected to run hour or two late, but run. Troops on scene from here in about hour and half. Indirect reports say troops met no resistance. Aeroplane flights here yesterday twice called out rifle, fifteen shots each time from Mexican side river."

The Harlingen message said: "Reported two automobiles fired on about mid-night near Bareda; one hit five times. Two railroad bridges South San Benito on fire. Sent Lieutenant Mallory, ten men, two thirty in automobiles and Bristol with all available men. Troop A., from river. Telephone communication between here and Brownsville."

WAR BRINGS MACHINISTS EIGHT HOUR DAY.

Springfield, Mass., Sept. 2.—The eight hour day has finally arrived at New England machine shops. The Bosch Magneto Company today drops from the 9 1-2 hour schedule to 8 hours, with the same pay to its thousand machinists. This is the only large metal shop in this city, outside the United States Army, that has met the demands of its men for the eight hour day, but others must follow suit or lose their best employees. The machinists in other New England cities expect the general adoption of the eight-hour day, through the great demand for experienced men. For many years New England employers have fought the eight-hour schedule, and they were firmly entrenched, with a plentiful supply of men.

HANDCUFF GUARDSMAN TO TELEPHONE POLE.

Newport, Ark., Sept. 2.—Three hours public humiliation, handcuffed to a telephone pole on Main street, was the punishment meted out today to Private Robert Watson of the Arkansas National Guard after a court martial had found him guilty of robbing a negro while on patrol duty last night in flood devastated sections of the city.

NO DISCUSSION EXPECTED.

Washington, Sept. 2.—No discussion of the manner of fixing the reparation to be given the United States by Germany for the loss of American lives on the Lusitania and the Arabic is expected here until the promised formal communication from the German government disavows the sinking of the Arabic is received.

THE LAYMEN'S PROGRAM AT ILLINOIS M. E. CONFERENCE

Sessions Will Be Held Thursday and Friday of Coming Week—Dr. J. R. Harker is Candidate for General Conference in May.

A noteworthy part in the Illinois annual conference sessions to be held next week in Springfield will be played by the Laymen's association and the Lay Electoral conference, meeting respectively Thursday and Friday. The Laymen's association meets Thursday afternoon at 1:30 o'clock in First Congregational church and will continue their sessions at 4 and at 6:45 o'clock in the First Methodist church of Springfield.

Morgan county representatives to the Lay Electoral conference which meets Friday morning in the Congregational church at 9:30 o'clock and at the First M. E. church in joint conference with the ministers, are:

Grace church, Dr. J. R. Harker. Centenary church, Charles W. Boston.

Brooklyn church, E. R. Hem-brough of Ashbury.

Jacksonville circuit, James Mahon.

West Jacksonville circuit, James Allan.

Saturday forenoon at 8:30 o'clock the laymen will attend the services at First M. E. church and hear Bishop W. F. McDowell. At the Congregational church they will be led in devotion by Judge Isaac Love of Danville and addressed by G. S. Tarbox of Arcola on the subject, "The Country Church and How to Help It". The laymen will listen to a temperance address by R. A. VanFossen, assistant superintendent of the Anti-Saloon league. This will be followed by reports of the secretary and treasurer and the various committees, the election of officers and adjournment.

Dr. Harker's Candidacy.

Dr. Joseph R. Harker's name has been mentioned as one of the eight lay delegates to be sent from the Illinois conference to the general conference of the Methodist Episcopal church in May, 1916, at Saratoga Springs, N. Y. Illinois conference sent nine ministerial and nine lay delegates to the last quadrennial conference, but a slight falling off in membership reduces this number to eight of each.

Unknown to Dr. Harker, friends of his in the Jacksonville district, have prepared circular letters, endorsed by local laymen-elect, asking support for the Harker candidacy from all parts of the conference.

Dr. Harker is the only member of the Illinois conference, either minister or layman, who belongs to one of the church boards, holding membership in the Board of Education of the Methodist Episcopal church. At the last quadrennial he wrote a large part of the report of the general committee on education, though not officially connected with the committee.

The Laymen's Association.

Following is the program of the Laymen's association which meets the day before the laymen's electoral conference:

Thursday afternoon—1:30 Opening Service—By Henry Jenne, Caldwell.

1:45 Address of Welcome—John S. Barber, Springfield.

Response—Benjamin F. Kagey, LaPlace.

2:00 Remarks by President of Association—James W. Breckon, Palmyra.

Appointment of Committees.

2:15 Address, The Laymen's Calling—C. C. Grimm, Palmyra.

2:30 Reports of Vice-Presidents.

3:00 Address, The Laymen's Association—Its Possibilities and Opportunities—Professor F. M. Austin, Bloomington.

3:13 Every Member Canvass. (a) How it Works in the City Churches—T. V. Hopper, Jacksonville. (b) How it Works in the Rural Churches—Joseph Smith, Auburn.

At First Methodist Church—4:10 Address by Rev. Harris Franklin Hall, D. D., Evanston.

The evening laymen's program—6:45 Street Services—Gospel Teams of Champaign. District in charge of the leader of Rantoul Gospel Team. (Services on south side of square.)

7:30 Opening Exercise—First Congregational Church. By S. A. Murdock, Champaign.

7:45 Address, "Evangelism and Social Service"—By Rev. John G. Benson, Brazil, Ind. Gospel Team Service.

RUSSIAN TROOPS RETIRE.

Petrograd, via London, Sept. 3.—An official communication made public tonight by the Russian war office announces the evacuation by the Russian forces of the fortress of Grodno and the retirement of the troops to the right bank of the Nieman river.

AVIATOR FALLS INTO BAY; IS PICKED UP UNHURT.

San Francisco, Sept. 2.—Silvio Petrossi, an Argentine aviator, fell from a height of several hundred feet into San Francisco Bay late today. How as picked up by a tug and rushed to a hospital where it was found he was uninjured.

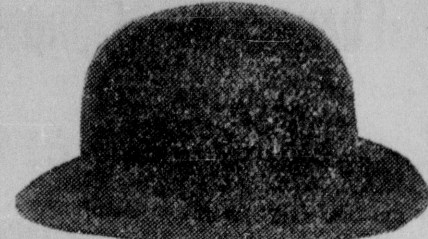

DOES NOT OPPOSE SUNDAY BASEBALL.

Hammond, Ind., Sept. 2.—J. W. Street, rural church organizer of Nashville, Ind., told delegates to the National Efficiency church conference here today that he did not oppose Sunday baseball. He described the pastime as "the natural expression of buoyant young life."

Miss Mary Wood has returned to her home in Alexander after a visit of several days in Pittsfield. George H. Hall of Alexander was a business visitor in Jacksonville Thursday.

HELD JOINT PICNIC AT NICHOLS PARK

PORTUGUESE PHILANTHROPIC SOCIETY CELEBRATED ANNIVERSARY.

Members of Northminster Church Joined in Events of the Day—Mayor Rodgers Presided During Program—The Necrology Record.

A double bill was well enjoyed yesterday afternoon at Nichols park when the people of Northminster church had a picnic and the Sociedade Philantropica celebrated the landing of the exiles in this community in 1849. The day was all that could be asked and the time was auspicious and with well filled baskets containing all manner of good things the people, old and young, flocked to the park to enjoy the occasion.

The chautauqua platform and a lot of seats carried to the side of it were utilized for the formal part of the program. Mayor H. J. Rodgers presided and requested Rev. W. E. Spoons to offer prayer. After prayer Mr. Rodgers said this was a good country, free and with many privileges. It contained many good citizens among whom the Portuguese rank well both in the common and higher walks of life and it was his pleasure to introduce a gentleman filling one of the most important positions in the county, Mr. H. H. Vasconcellos, county superintendent of schools. Mr. Vasconcellos said in part:

Mr. Vasconcellos' Address.

This is a beautiful place and I heartily commend the commission of Nichols park for the work they have done in adorning and beautifying this popular resort. We are here for a purpose and it seems to me it should be a religious observance conducted in a church as it commemorates the arrival of a band of exiles seeking a new land that they might worship God according to the dictates of their consciences. But we should be good friends even if we fail to agree in all things. The commemoration of the deeds of our ancestors should be a strong matter with us and I am proud to be here to help celebrate the occasion.

Our ancestors left us a glorious heritage which cannot be taken from us. They showed their sincerity, their devotion to duty and loyalty to the truth by enduring persecution even to death. They have been good citizens here and when they adopted land was in danger they were ready to volunteer in her defense. As the Pilgrim fathers came in the Mayflower that they might find freedom to worship God so did our ancestors come for the same purpose.

The time was when we had a great influx of immigrants from Germany and that language was taught in our public schools but they are not coming so now and the language has not the place it once had. The opening of the Panama canal has made great possibilities. The commission from South America came here to investigate our markets and informed our country that we could get much of their trade but we would have to learn their language and conform to their ways and so in some parts of our land they are teaching Portuguese and Spanish in the public schools. Have we neglected our opportunities. Yes, Judge Thompson brought me a letter from South America and written in the Portuguese language and I was unable to translate it. I should have been able but was not. We should certainly learn the language of our fathers.

Mr. Spoons Referred to Past. Miss Lorine Baptist then recited in a very capable manner a selection entitled "Hello" and containing a number of excellent maxims. Mr. Rodgers then introduced Rev. W. E. Spoons who said in part, "I feel between two forces today; the church and the society commemorating the landing of the exiles. I am not exactly between the deep sea and the party that tempts us to do wrong, but feel ready to do what I can to make the day a success. The great sea was not able to keep your ancestors from a land of gospel freedom and I sincerely congratulate you on the grand and glorious heritage left you by your forefathers. I have heard much of their great labors and feel that we cannot do them too much honor. Their faith in God was great as they sought afar a place where they might enjoy religious freedom. We do not see anything at its best without an expression of the life within and so I see on every hand an expression of the grand and noble life and spirits of the people who dared so much for conscience's sake.

"Many honorable positions have been held by your people here and elsewhere and I was proud in the far south to see the name of J. A. Pires as one occupying an important position in the world of finance. I see evidences of a great faith in God on every hand. Music is worthless if pent up in the soul of some great composer and so would the faith of your fathers have been worthless if it had been merely a sentiment without expression and action. Raphael gave expression to the sentiment in him when he painted his matchless picture of the Transfiguration. So I want a picture of life that thrills me with its expression and that we have in our forefathers.

"I see another kiss on the brow of man by his Maker in the redemption of Christ which shows the love of God to man and so the kiss of your fathers on your brow is the heritage they have left you. They came here strangers, penniless, alone, as it were, but they found friends after suffering untold hardships and persecution. I beseech the

young and rising generation to be worthy of the heritage left them. A man who knew them said there was not a black sheep in the whole flock. They were honest and honorable; their word was never broken and they were faithful and upright but the younger generation are not all so and a man said they have become Americanized and it is my purpose to help undo that Americanizing.

"I am not going to scold. I believe in words of cheer and encouragement. I like taffy far better than epitaphy; I would rather have one poor, faded flower if a little fragrant than a heap of bouquets on my coffin. Let us cheer and help each other. I am glad to be back from Mexico. I could tell you many shocking things but shall not do so. God bless you and help you fight the battle for the right."

Mr. Rodgers said the land was made up of many elements but we have a blessed unity. We differ in some things but all meet on a common ground. Miss Lorine Baptist then recited two more selections, "Phillip Arm" and "Who Got Skinned?", both humorous and well rendered.

John N. Joaquin, secretary, then read his report which contained the deaths which have occurred within the past two years.

Mr. Rodgers said his ancestors came from Scotland and he had heard them tell of the weary ten weeks on the water in a sailing vessel, a part of the time kept below during a storm and several weeks spent in a calm.

E. M. Vasconcellos then urged the importance of acquiring the Portuguese language. There were many of that nation in New Bedford, Mass., and 70,000 in California. He felt like taking off his hat to any one who came here an exile 66 years ago. He wanted to know if the society was to be continued and the vote for it was unanimous.

Election of Officers. Election of officers then followed with this result.
E. M. Vasconcellos, president.
John N. Joaquin, secretary.
A. P. Vasconcellos, treasurer.

The thanks of the audience were tendered the mayor and speaker of the day and the exercises closed with "America" and the benediction by Mr. Spoons, after which all addressed themselves to having a good time socially, with games and all sort of ways. Supper was enjoyed and after the evening had been pleasantly spent all returned to their homes well pleased with the day.

County Clerk.

THE FACE AT THE GRATED WINDOW.

A bright young boy, full of hope and joy,
Went forth into morn's fair morn-
ing,
With a throbbing joy which naught
can alloy,
The world with its battle scorn-
ing.

He was buxom and gay as he faced
the day,
Each breath his strength renew-
ing.
The sky was fair as he breathed the
air,
His soul with love imbuing.
With innocent eye he viewed the sky
Tender grace his life adorning;
But he trusted the man of the lying
clan,
Not heeding a kindly warning.

Dame Fortune was kind to this ten-
der mind,
Him every kindness showing.
His intellect grew, while yet the dew
Upon the mead lay glowing.
Not wishing more, he stood at the
door,
Where fortune was reclining.

Ere he knocked he stopped, as his
brow he mopped,
For a dazzling sun was shining.
He turned away from the blossoming
day
To a dark-haired man there smil-
ing,
For he trusted this man of the lying
clan,
Made only for soul's defiling.

The man told him there of a land so
fair,
With fragrant roses growing,
Where day and night steal softly
away,
With a warm light ever glowing.
The innocent boy was as lustful of
joy

That he heeded, nothing fearing;
So he left fortune's door forever-
more,
Not heeding the deceitful sneer-
ing,
Each scene that he passed more fair
than the last

His life to the lie endearing
Of the christian man of the lying
clan,
The months passed on and the days
were gone,
Which are used for fruitful sow-
ing.

While the boy trudged on away from
the dawn,
His error never knowing,
With hope-lifted head, wherever led
The man with lips that were lying,
And he never knew, what seared
the dew

Or why the roses were dying,
With wonder he heard the enticing
word,
That led him away from the
morn-
ing;
He was trusting the man of the ly-
ing clan,
In spite of a tender warning.

Dreary days came at last with
a withering blast
And the need of bounteous reap-
ing.

The man gave a stone to the boy
there alone
And left him bitterly weeping.
'Twas the end of the fun, the man
had done

With the boy he'd been deceiving,
And he slipped away ere the dawn
of day

Thinking naught for the youth he
was leaving,
The only relief for the youth was
grief,

There by the pathway reclining,
Who had trusted the man of the
lying clan,
Forever and ever repining.

He cursed cruel fate with bitterest
hate,
Which he knew his life was spoil-
ing;

For the world once so dear, he has
only a sneer

He is weary of useless toiling,
There are some who said his soul
was dead.

While the body still was living;
There are those who say he idled
away

The moments which life was giv-
ing;
There are some who are kind, and
some unkind,

Who reproach him his name revil-
ing;
But he trusted a man of the lying
clan,
His innocence thus defiling.

The lying devil in fortune doth re-
vel,
Instead of his brother keeping;
He liveth with fame and a Chris-
tian's name:

O're the lad cold death is creep-
ing,
'Twould be a boon, were death more
soon

For this youth whose soul is
sleeping,
Who nothing knows save the scorn
of foes

And a heart ever sadly weeping,
Tho the youth is gone, the fiend
smiles on.

Another victim awaiting;
He, who trusted the man of the ly-
ing clan

Peers forth from an iron grating.
The mornings dawn, the days wear
on,
And the nights with moonlight
shining;

But the soul of the boy ne'er know-
eth joy,
Dire grief his mind undermin-
ing,
Whether day or night or darkness
or light

For him no song bird is soaring;
Love came too late to meet the man
Which into his soul was pouring
But the christian fiend his harvest
gleaned

And his mill doth ceaselessly
grind;
The boy trusted that man of the ly-
ing clan

And grieving blighted his mind,
—Mark Dee Gordon.

The verses above were penned by
Mr. Gordon of Scott county. He said
of them:

"While visiting one of our state
hospitals for the insane for pur-
poses of sociological and criminological
study, I passed by a window in the
ward for the worst patients, where
I saw just for a moment the face of
a young man, which appeared to me
in a strange way. Later I wrote
the lines, which accompany this let-
ter, with that face in mind."

WOMEN FROM 45 to 55 TESTIFY

To the Merit of Lydia E. Pinkham's Vegetable Compound during Change of Life.

Westbrook, Me. — "I was passing through the Change of Life and had pains in my back and side and was so weak I could hardly do my housework. I have taken Lydia E. Pinkham's Vegetable Compound and it has done me a lot of good. I will recommend your medicine to my friends and give you permission to publish my testimonial."

— Mrs. LAWRENCE MARTIN, 12 King St., Westbrook, Maine.

Manston, Wis. — "At the Change of Life I suffered with pains in my back and loins until I could not stand. I also had night-sweats so that the sheets would be wet. I tried other medicine but got no relief. After taking one bottle of Lydia E. Pinkham's Vegetable Compound I began to improve and I continued its use for six months. The pains left me, the night-sweats and hot flashes grew less, and in one year I was a different woman. I know I have to thank you for my continued good health ever since."

— Mrs. M. J. BROWNELL, Manston, Wis.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled in such cases.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman, and held in strict confidence.

Baby of Future is Considered

Much thought has been given in late years to the subject of maternity. In the cities there are maternity hospitals equipped with modern methods. But most women prefer their own homes and in the towns and villages must prefer them. And since this is true we know from the great many splendid letters written on the subject that our "Mother's Friend" is a great help to expectant mothers. They write of the wonderful relief, how it seemed to allow the muscles to expand without undue strain and what a splendid influence it was on the nervous system. Such helps as "Mother's Friend" and the broader knowledge of them should have a helpful influence upon babies of the future. Science says that an infant derives its sense and builds its character from cutaneous impressions. And a tranquil mother certainly will transmit a more beautiful influence than she who is tremulously nervous from undue pain. This is what a host of women believe who used "Mother's Friend" during their period of expectancy.

The points are more thoroughly explained in a little book mailed free.

"Mother's Friend" is sold in all drug stores and highly recommended for its timely usefulness, its safety and the real help it affords. Ask for it at the store and write us for the book. Bradfield Regulator Co., 511 Lamar Bldg., Atlanta, Ga.

The effect of this splendid external application is an expression of the thousands of women who have successfully used it and recommended it through two generations.

PEORIA WOMAN PRAISES REMEDY

Mrs. Tillia Conard Tells Remarkable Experience After Suffering for Months.

Mrs. Tillia Conard lives at 307 Morton Street, Peoria. She suffered from stomach trouble for months. Nothing seemed to give relief. One day she visited a sister who resides in Bloomington, and upon urgent advice consented to try one bottle of Mayr's Wonderful Remedy. This, in her own words, is the story of her experience—read it.

"For a number of months I suffered terribly with pains in my stomach; would fill with gas and belch for an hour at a time. I had pains in my side which at times I thought would kill me. I was under the doctor's care for four months, but got no relief at all. One day while in Bloomington my sister persuaded me to take a bottle of your remedy. To say the results were wonderful would be putting it mildly. After the first dose my pain left me, my appetite improved, my skin became clear again and I felt like a new woman."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.

SOX LOSE FINAL GAME ON THE DETROIT FIELD

CHICAGO GOES TO PIECES WHEN TIGERS START TO HIT.

Cobb's Hitting is Noteworthy—Result of Series Eliminates Sox From Any Possible Consideration as a Pennant Contender.

Detroit, Sept. 2.—Chicago lost its final 1915 game on the Detroit field today 8 to 6. As in several previous contests, Chicago went to pieces when the Tigers started to hit giving an awful exhibition of kicking bunts and throwing the ball away. Cobb's hitting was noteworthy. The result of the series just ended of which Detroit made a clean sweep eliminated Chicago from any possible consideration as a pennant contender.

INDICATIONS POINT TO PHILLIES AND RED SOX AS PENNANT WINNERS

Brave Fans, However, Still See a Possibility of Having the Whole World's Series Played in Boston.

New York, Sept. 2.—While Philadelphia increased its lead in the National League race today and Boston held its ground in the American the indications that the races for the pennants will be between two teams in each league became more apparent.

By losing the first game of the series to Brooklyn at Braves' Field, the Boston Nationals were set back further into third place, while Philadelphia, winning two games to Brooklyn's one, slipped a little further ahead of the Superbas. However, the Braves have not been eliminated from the race and Boston fans still see a possibility of having the whole world series played in Boston.

Chicago was virtually eliminated as a contender for pennant honors by losing to Detroit today, the hard hitting Tigers taking every game of the series.

The White Sox are now eight games behind the Tigers and nine and a half games behind the Red Sox who maintained their lead over Jennings' men by taking another game from Philadelphia.

TWELVE CARS QUALIFY FOR SATURDAY'S 500 MILE RACE

FORT SNELLING, Minn., Sept. 2.—Twelve cars had qualified for Saturday's 500 mile race at the new Twin City motor speedway when this afternoon's trials had been concluded. Five cars met the necessary speed requirements today and seven qualified yesterday. It was said that possibly three other drivers would be given tryouts tomorrow.

Ralph DePalma topped today's drivers with one lap at a speed of 99 miles an hour.

Earl Cooper made his trial at an average speed of 98 miles per hour. Bob Burman contented himself with a lap at a speed of 95 miles per hour. None attempted to equal Dario Resta's record speed of 102.5 miles per hour.

BROOKLYN HITS BRAVE TWIRLERS AND WINS

BOSTON GOES TO PIECES IN FIRST INNING.

Rudolph's Wildness and Fielding Lapses Give Brooklyn Six Runs in Initial Session—Evers, Fitzpatrick and Schmidt Are Banished From Grounds.

Boston, Sept. 2.—With second place in the National League at stake the Boston Nationals opened their series with Brooklyn today, the visitors winning, 10 to 1. Boston went to pieces in the first inning when Rudolph's wildness and fielding lapses gave Brooklyn six runs. Two other Boston pitchers were used.

Evers, who delayed the game while he held a handkerchief to his nose; Fitzpatrick who did the same thing after he took Evers' position and Schmidt, who argued too strenuously, were banished from the grounds in the fifth inning by Umpire Byron. Score:

NINE HEATS SUFFICE TO DECIDE THE THREE RACES AT YONKERS

Directum 1 Paces Mile in 2:02 1-4 Over Track Which Trainers Estimated to be From Three to Four Seconds Slow.

Yonkers, N. Y., Sept. 2.—Over a track which trainers estimated to be from three to four seconds slow, Directum 1, paced a mile in 2:02 1-4 at the Grand Circuit meeting at Empire City park here today. Before the trial all experts thought the horse would do well to beat 2:04 on the loose, cuppy footing and his performance in the circumstances therefore was regarded as one of the best he has ever made. Starting to beat his own unequalled record of 1:58 without a wind shield, he paced the first quarter in :32, the second in :30 1-4, the third in :31 and the fourth in :29.

Nine heats sufficed to decide the three races on the program. Audrey Grey, driven by Walter Cox was an easy winner in the 2:20 trotting race and Lustrous McKinney with equal ease won the race for 2:11 pacers, putting in her last two heats in 2:08 and 2:07 1-4.

The star performance in the races however, was the three year old filly, Miss Harris M., winner of the pacing division of the National championship station stake. Driven by Lon McDonald, she reeled off the second heat in 2:07 1-4, convincing horsemen that on a firm, fast track she can beat 2:05.

The meeting will continue tomorrow with races for 2:10 trotters, 2:15 trotters and 2:08 pacers.

CASES OF INTEREST.

Arizona Anti Alien Law.

(West Publishing Co.)
The citizens of Arizona on November 3, 1914, enacted, under initiative petition, a law entitled "An act to protect the citizens of the United States in their employment against non-citizens of the United States, in Arizona, and to provide penalties and punishment for the violation thereof." The act requires every employer of more than five persons to employ not less than 80 per cent citizens of the United States. Violations are punishable by fine and imprisonment. Misrepresentation by an employee as to his nativity or citizenship is likewise punishable. The complainant alleges in substance, that he is a native and subject of the empire of Austria; that he is employed by the defendant in a restaurant in which are employed more than five persons; that the defendant is willing to retain the complainant in his employ, but the Attorney General of Arizona and the county attorney of Cochise county threaten to prosecute defendant under said act; that, if defendant shall be compelled by prosecution to discharge the complainant from his employ, he will suffer irreparable injury on account of his discharge; and that the act is violative of the rights of the complainant under the Constitution of the United States, in that it denies to him the equal protection of the laws which is guaranteed under the fourteenth amendment to all persons submitting themselves to the jurisdiction and laws of the United States, whether citizens or aliens. On behalf of the state of Arizona, it is averred by the Attorney General that the law in question will be enforced against all persons within its borders, and that it is a valid exercise of the police powers of the state. The court holds that the act denies to the complainant the equal protection of the laws, and is therefore in violation of the fourteenth amendment to the Constitution of the United States, and is void. *Raich vs Traux et al.*, 219 Fed. 273.

Efficient Housekeeping

BY HENRIETTA D. GRAUEL.

THE WINE OF TOMORROW.

"Grape juice is the wine of tomorrow," declares C. Houston Goudiss in the Forecast magazine for August, and then he goes on to give the simple process of making this health giving drink.

HENRIETTA D. GRAUEL

Get the grapes, press out the juice, sterilize it in sterilized bottles and seal it up," he says; but he adds that the "simple" process is not so easy as it sounds.

Manufacturers making a great quantity for the trade need immense factories and improved machinery, but housekeepers can make it as pure and good as any commercial article and in any quantity they need.

"Get the grapes," is good advice, for they must be perfectly ripened and full of fruit juice and sugar. If you live in the neighborhood of an Italian settlement you have surely seen the women of the families bearing great baskets full of Concord grapes on their heads, going homeward after a day spent in the vineyards.

Usually they pick the fruit "on shares," and they will trudge miles night and morning, sometimes with a baby in their arms and other tots clinging to their skirts, to reach the vineyards.

The grapes are pressed by the winemaker of the settlement, there

is always one, and he is the important personage in the locality and are then made into wine. But the beverage of the future is not fermented, it is just sweetened, bottled sunshine, rain and sugar. It does seem as though that is about all there is to a grape, but there is more, for the ripe clusters have healing virtues. Grape cures have been known and used successfully since Caesar's day.

The grapes should be thoroughly washed after they are picked from the stem and heated in a great kettle until the juices flow from the broken skins and boil up over themselves. Strain through a heavy flannel bag and return to the fire; let boil again, about five minutes. Have new jars or bottles sterilized and ready. Pour the boiling juice into them and seal immediately.

Use a porcelain kettle and a wooden spoon in preparing the juice look after the corks, lids and rubbers carefully. All air must be excluded or the juices will not keep. Dinner Suggestions for Hot Fall Days.

Meats—Chicken in aspic, veal loaf, salmon in mayonnaise sliced mutton with mustard, sardines, heated with bacon in chafing dish, spiced ham sliced.

Salads—Chicken salad, potato salad, tuna fish salad, salad provencal, pepper and cucumber salad, fresh lettuce and onions.

Desserts—Peach cobbler with cream, iced cantaloupe, baked apples, watermelon, grapes, gelatine molds, fruit dumplings.

Beverages—Water ices, iced tea and coffee, all fruit juices, raspberry vinegar, chilled grape juice, cider, coco and chocolate, blackberry cordial with crushed ice.

FEW CHANGES IN THE WOMAN'S COLLEGE FACULTY

All Heads of Departments Remain as Before Except French and English — Mrs. Moellering and Mrs. Ellis New Instructors.

There will be no changes in the heads of the special departments in the Woman's College this year. The College is fortunate that Mr. Stearns remains in charge of the Department of Music, Miss Walker of Home Economics, Miss Glickler of Expression, and Miss Knopf of Art. Under these talented leaders these departments have set a high standard of efficiency, and the good work will be still further advanced the coming year.

There will be very few changes in the collegiate departments. The following are well known in Jacksonville, both as exceptional teachers in their respective departments and as most helpful and interested in every good cause in the city—Miss Mothershead, as Dean and Professor of Philosophy and Education; Miss Neville in Bible Study; Miss Cowgill in German; Miss Mary Anderson in Mathematics; Miss Johnston in Latin and Greek; Miss McLaughlin in Chemistry; Miss Jennie Anderson in History; Miss Alexander in Biology; and Miss Hull in Physics and Geology. It is a distinct advantage to Jacksonville that such teachers as these can be retained from year to year.

The departments of French and English have new professors in charge, and the College is glad to bring to its halls and to Jacksonville two women of such ability as teachers and scholars.

Mrs. Faye W. Moellering is in charge of the Department of French. Mrs. Moellering is a graduate of the University of Michigan, with the degree of Bachelor of Arts. She has a life certificate in Michigan for French and German. She was for some years in charge of these departments in the University of Wooster and next in the Randolph-Macon School at Danville, Va. She speaks both French and German fluently and brings the highest recommendations both as a teacher and a woman of fine personality.

Mrs. Beulah N. Ellis is in charge of the Department of English. Mrs. Ellis is a graduate of the Southern Illinois Normal School, of Radcliffe College, Cambridge, Mass., of the University of Chicago, and of Columbia University, New York. She has two degrees of Bachelor of Philosophy and Bachelor of Education from the University of Chicago, and the degree of Master of Arts from Columbia University. For several years she has taught the English language and literature at the State Normal School, and all her college and university work has been taken with special reference to this department.

She comes to the Woman's College with the highest recommendations. The following letter from State Superintendent Blair voices the unanimous testimony of Mrs. Ellis:—
My Dear Dr. Harker:
I have known Mrs. Beulah N. Ellis for fifteen years as a friend, as a student, as a teacher in the public schools and in the normal school. She is a woman of unusual, natural endowment and intellectual powers above the average. Her energy and determination are most noteworthy. She has attended the best higher institutions in this country, and has demonstrated her ability as a master in any field she enters. Her teaching in the literature and language department has been of the very highest quality. I can recommend her unreservedly.

Yours sincerely,

(Signed) Francis G. Blair.
The Woman's College has a faculty of thirty four teachers, and the College is equipped to do the highest grade of work in every department of study in which women are interested. It is a matter of great satisfaction that in the last few years the people of Jacksonville have shown that they greatly appreciate the College by the large attendance at the College in every department from Jacksonville and vicinity. With such opportunities at our very doors, Jacksonville is favored beyond almost any other community in the country.

Miss Rena M. Lazette, New Voice Teacher at Woman's College.
The voice department of the Woman's College already maintains a very high standard, but it is to be still further advanced for the coming year. Mrs. Hartmann will of course continue her good work. She has studied with many of the world's greatest masters of voice. Her success as a teacher is unquestioned, and her time is always in great demand.

Associated with Mrs. Hartmann the College is pleased to introduce Miss Rena M. Lazette, of New York City. Miss Lazette has a beautiful soprano voice of wide range, and great expressive quality and has been one of New York City's most popular church and concert sopranos. She has been soloist at the Temple Emanuel, the Old First Presbyterian Church, The University Place Presbyterian Church and others, and has appeared as soloist with many well known choral organizations and at such functions as the Waldorf-Astoria Musicals, etc. In addition to this activity Miss Lazette has had a large class in New York and one in New London, Conn. She is well known in Boston where she has been heard in frequent recital and as soloist at the concerts of the Harvard Musical Association. She has studied with Madame Varesi in Chicago, a representative of the old Italian method of singing. Ross David of New York, an authorized representative of Jean de Reszke, and Victor Maurel, one of the greatest of all Italian baritones. She brings to her work wide experience, great enthusiasm and charming personality and is sure to win a distinct place as a

teacher and artist. She will be a great addition to the Musical Circles of Jacksonville.

WILL CLARIFY PLANS FOR CORRECTING EXCHANGE SITUATION

French and British Financial Commissions Are on Way to New York — Do Not Regard Situation as Alarming.

London, Sept. 2.—Plans for correcting the abnormal exchange situation and putting on a stable base the entire machinery of settling trade balances between America and Europe will be clarified within the next few days on the arrival in New York of the French and British financial commissions.

Both commissions have received their instructions and now are on their way. The British authorities have requested that details regarding the British commission be not discussed until the delegates are well outside the danger zone, after which all reservations will be removed and the subject opened to the fullest discussion.

Meanwhile it is known that the commissions are in a position to correct some misapprehensions which are believed to exist in the United States concerning British, French and Russian dependence on America. One of the best informed authorities said today:

"The idea seems to prevail in New York that we are on our knees and begging America to come to our assistance. The situation is exactly the reverse. America wants to sell Europe its goods and if Americans hope to continue these sales they must find a means of giving the usual credits and stabilizing exchange."

The British commissioners are fully conversant with the attitude of the government which does not regard the present situation as alarming. On the contrary the government view is decidedly hopeful as the recent success in floating the gigantic war loan has given it confidence that the largest financial problems can be readily surmounted.

LETTER FROM MISSIONARY.

At the mid week prayer meeting service of the Congregational church a letter was read from the Rev. Leonard R. Christian, missionary pastor of the church in Foo-Chow, China. It is probably that Rev. Mr. Christian and his wife will return next year and members of the local congregation are anticipating their coming with pleasure.

WAS GIVEN SURPRISE.

Miss Grace Hill was given a pleasant surprise at her home in Franklin Wednesday evening by about twenty of her friends. The party met at the home of Albert Alderson and proceeded to Miss Hill's home. The evening was pleasantly spent with music and games and an elegant three course luncheon was served. Miss Hill expects to go to Winchester where she will teach the coming year.

Every Day Brings New Models in

Women's Smart Fall Coats and Suits

Our Ready-to-Wear Department is again taking foremost rank in its varied showing of the newest and MOST AUTHENTIC styles at this early advanced date. The charm of style originality lurks within the folds of each and every one of these garments. Conceived in such good taste, tailored with such care, the completed garment by its very perfection sinks in to a quiet unobtrusiveness while it casts about the wearer an indefinable air that we recognize as true refinement.

Suits involve a wide range of styles in broadcloths, serges gabardines, poplins, English tweeds, whip cords, mixtures and men's wear worsteds, in black, brown, plum, navy blue, taupe and green. Many new effects are introduced this season, fur trimming being used extensively. Skirts are either plain, two-piece, flat plaited, cluster plaited, smocked or circular and usually trimmed to match the coat.

We are confident that a visit to our Ready-to-wear department will be both interesting and instructive to every well dressed woman in this vicinity. Hosts of satisfied customers returning year after year are the best testimonial to the true merits of our garments.

FORMER RESIDENT DEAD.

Mrs. Susan Lockwood Porter Lived Here Many Years Ago—Had Reached 85th Year When Death Came.

Died at Charming, Penn., in the eighty-fifth year of her age, Mrs. Susan Lockwood Porter, of Washington, D. C., widow of Charles W. Porter, and daughter of Hon. Samuel D. Lockwood and Mrs. V. N. Lockwood. The Lockwood family were residents of Jacksonville for many years. Two daughters of Mrs. Porter survive her, Mary and Harriet Porter, and also her sister, Mrs. Anna Lockwood Merriman of Boston, Mass.

The above notice was kindly sent to the Journal by Miss Martha Coffin, now of Evanston, Ill. Miss Coffin is a daughter of William Coffin, formerly of this place, and favorably known here. The Coffins lived for some years in Batavia, Ill. Miss Coffin was a niece of Mrs. Porter. Mr. William Coffin was graduated from Illinois College in 1841.

Mrs. Porter was the daughter of Judge Samuel D. Lockwood, for many years a justice of the Supreme court of Illinois, and one of the most distinguished citizens of Jacksonville and of Illinois. He was also one of the best men who ever honored the state by his presence and services. Mrs. Porter was probably born here. The Lockwood family lived in the house at the south west corner of Church street and College, long its residence, afterward of Mr. and Mrs. Gates Strawn.

A TRIBUTE FROM PRES. JAMES

President Edmund James of the University of Illinois, formerly president of Northwestern University has paid the following tribute to the late Dr. G. V. Black:

"I first became acquainted with Dr. Greene Vardman Black when as president of Northwestern University I became responsible in a general way as an executive for the conduct of the Dental School of that institution.

"I was greatly impressed by his personality when I first met him and as our acquaintance continued it ripened into a genuine affection for him as a man. In certain lines his is the most distinguished name in annals of American science. He was a man of whom his institution, his community, the state and nation may well be proud and his passing is a great personal loss to thousands of his former students and colleagues."

SHOCK THRESHING FINISHED IN LYNNVILLE PRECINCT

Last Work Done on the Morris Farm—Mr. McKinney Believes Next Year Not Promising For Wheat.

F. P. McKinney of the Lynnville neighborhood was in Jacksonville Thursday and said that wheat threshing from the shock had just been completed in that neighborhood. The last field threshed is the property of Edward Morris. The season has been unfavorable indeed for threshing work, and all the residents of the neighborhood are rejoicing that the huge task carried on under such adverse circumstances has been completed.

This statement led to some observations about the wheat crop and Mr. McKinney declared that based on experience he did not believe that next year would be favorable for wheat. He gave as a reason that because of the wet weather, farmers have not had the opportunity to make the proper preparations for wheat planting. Frequent rains have caused an unusual growth of weeds and grass in some stubble fields, and as a matter of fact, very little ground has been broken in preparation for wheat planting. Mr. McKinney said that in his experience in farming that he had always found it true that the season following a wet year was not a good one for wheat growing in this section.

REUBEN V. GUNN IS MARRIED AT ORANGE CITY, IA., THURSDAY

Ceremony Said by Rev. Howard M. Jones of Wisconsin, Cousin of the Groom—Wedding at Home of the Bride Miss Christina Rouwenhorst.

The marriage of Reuben Veerinn Gunn, formerly of this city and Miss Christina Rouwenhorst of Orange City, Ia., took place Thursday afternoon at the home of the bride's parents, Mr. and Mrs. M. Rouwenhorst. The ceremony was said on the lawn by the Rev. Howard M. Jones of Auburndale, Wis., a cousin of Mr. Gunn. The young people were attended by Miss Alice M. Gunn, sister of the groom, and William Baird of Waukesha, Wis., a college friend. The lawn and house decorations were of green and white. The bride was attired in white and the bridesmaid in green and the same color idea was carried out at the luncheon, which followed the ceremony.

Mr. and Mrs. Gunn are expected to arrive this evening in Jacksonville for a visit with the groom's mother, Mrs. John T. Gunn, west of the city. After Nov. 1, they will be at home in Madison, Wis., where Mr. Gunn has a teaching position in the state university.

The groom was graduated in 1905 from the Jacksonville High school and after attendance at Illinois college went to the University of Wisconsin, where he took the degree, bachelor of science. For three years past he has been instructor in farm management at the university, much of his work taking him to all parts of the state as lecturer and demonstrator.

The bride is a graduate of the Home Economics school of the University of Wisconsin and for three years has taught in a girls' school at Honolulu, Hawaiian Islands. Many friends in Jacksonville and vicinity and in Menard county will wish Mr. and Mrs. Gunn a long life of wedded happiness.

SOME AUGUST WEATHER FACTS.

The record of August weather kept by George H. Hall of Alexander indicates that August was unusual indeed. Mr. Hall declares that August 31 was the coldest day for any August month that he has recorded. The thermometer stood at 39 degrees, and the nearest to this record was 42 degrees on August 26, 1910. The mean temperature for the month this year was 68 degrees, which was 7.3 degrees below normal. The rainfall totaled 5.9 inches, which is 1.63 inches more than normal. The greatest rainfall was during the days of Aug. 20 and 21, when 3 1-2 inches of rain fell in twenty-seven hours. This excessive rainfall was preceded by a solar halo on the 19th between ten and twelve o'clock in the morning. Mr. Hall's records show that the total rainfall since Jan. 1 has been 33.82 inches. While he did not have certain evidence at his own farm, Mr. Hall says that he knows that there was a slight frost on Aug. 31, as evidences have been reported by a number of people in various parts of the country.
